

Car Care Event Scheduled for Car Care Month

In celebration of National Car Care Month in April, Sonsio is holding free vehicle inspections on April 11th from 10:30am to 2pm at 5630 Ward Road in Arvada, Colorado.

The inspections include checking fluid levels, tires, lights and other system components. After the inspection is completed, mechanical technicians review any discrepancies with the motorist and provide information about proper vehicle maintenance and repair. The goal of check lanes is to help motorists learn how to "Be Car Care Aware."

In April, as winter comes to an end, it is time to get your car ready for spring driving and summer road trips! National Car Care Month reminds you to take care of any issues that may have occurred or been ignored during winter. Stop by and let the professional technicians identify opportunities for you to improve your vehicle's gas mileage, enhance performance, increase safety and reduce emissions.

There will also be information booths, displays, food, prizes, a car show and more.

For more information about this event, please visit www.ArvidaCarCareFest.com.

The Car Care Council is the source of information for the "Be Car Care Aware" campaign, educating consumers about the benefits of regular vehicle care, maintenance and repair.
